## **Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application:

## **Listing of Claims:**

1-9. (Cancelled)

60,246-225 10,129

10. (Currently Amended) The insulated refrigeration panel assembly of Claim 1 An
insulated refrigeration panel assembly comprising:
a first skin;
a second skin spaced generally parallel to said first skin;
a first insulating body sandwiched between said first skin and said second skin,
said first skin, said second skin and said first insulating body forming a first panel unit;
a first flexible snap fit connector arranged to engage a first mating connector
along a first direction, said first flexible snap fit connector attached to said first panel
unit;
a second flexible snap fit connector arranged to engage a second mating connector
along a second direction transverse to said first direction, said second flexible snap fit
connector attached to said first panel unit wherein said first flexible snap fit connector
and said second flexible snap fit connector comprise at least one of said first skin, said
second skin, and said first insulating body; and
wherein said first panel unit comprises a first body and a second body, said first
body defining a first part of said first flexible snap fit connector and said second body
defining a second part of said first flexible snap fit connector, said first body separable
from said second body.
11-18. (Cancelled)

60,246-225 10,129

19. (Currently Amended) The insulated refrigeration panel assembly of Claim 13-An
insulated refrigeration panel assembly, comprising:
a first panel unit comprising a first skin, a second skin spaced generally parallel to
said first skin, and a first insulating body sandwiched between said first skin and said
second skin;
a second panel unit comprising a third skin, a fourth skin spaced generally parallel
to said third skin and a second insulating body sandwiched between said third skin and
said fourth skin;
a third panel unit comprising a fifth skin, a sixth skin spaced generally parallel to
said fifth skin and a third insulating body sandwiched between said fifth skin and said
sixth skin;
wherein said first panel unit comprises a first flexible snap fit connector and said
second panel unit comprises a first mating connector, said first flexible snap fit connector
engaging said first mating connector along a first direction;
wherein said first panel unit comprises a second flexible snap fit connector and
said third panel unit comprises a second mating connector, said second flexible snap fit
connector engaging said second mating connector along a second direction transverse to
said first direction; and
wherein said first panel unit comprises a first body and a second body, said first
body defining a first part of said first flexible snap fit connector and said second body
defining a second part of said first flexible snap fit connector.
20-22. (Cancelled)
